

ELEMENT Merge 1.5 represents the marriage of a recessed linear LED system with a low-voltage track lighting system. Whether being used to highlight architectural elements, or deliver well-controlled general illumination, ELEMENT Merge 1.5 puts the focus on the room. Recessed lines of uniform, glare-free LED light can be designed to make 90° turns in the same plane for enhanced architectural interest. Further, spot heads or pendants can be added directly into the channel at any point along its concealed low-voltage bus system for simultaneous accent or task illumination.

All ELEMENT Merge 1.5 components feature a beveled aperture to integrate seamlessly with architecture for sleek ceiling-to-fixture transitions. Available in 2', 4', 6' and 8' lengths (with a number of connector options) for flanged, flangeless, or lay-in installation.

- Low profile design for use in 2x4 construction
- 3-Step or better color binning
- Internal reflector finished with high-reflectance matte, white paint for even light distribution & optimal efficiency
- Must order 44" 4L-Fixture for any total lay-in run lengths
- IC airtight rated (EM housing Non-IC)
