

Creating a continuous uninterrupted line of beautiful, glare-free LED light, the ELEMENT Merge 1.5 recessed linear system inconspicuously puts light where it is needed without drawing attention to the fixture. The continuous line aesthetic created by the ELEMENT Merge 1.5 system is enhanced using either a specifically engineered 90° turn connector or wall-to-ceiling connector. Lines of LED light can be designed to seamlessly make 90° same-plane turns or transition from ceiling to wall for enhanced design interest while also allowing the option to add spot heads for accent and task lighting, all without adding more light fixtures to the space.

Key features

- Seamlessly makes wall-to-ceiling transitions for enhanced design
- Low profile design for use in 2x4 construction
- Dual sided illumination for even light along the channel
- 3-Step or better color binning
- Internal reflector finished with high-reflectance matte white paint for even light distribution & optimal efficiency
