

Creating a continuous uninterrupted line of beautiful, glare-free LED light, the ELEMENT Merge Suspended LED linear system inconspicuously puts light where it is needed. The continuous line aesthetic created by the ELEMENT Merge system is enhanced using a specifically engineered 90° turn connector. Lines of LED light can be designed to seamlessly make 90° same-plane turns for enhanced design interest while also allowing the option to add spot heads for accent and task lighting, all without adding more light fixtures to the space.

Key Features:

- 3-Step or better color binning
- Internal reflector finished with high reflectance matte white paint for even light distribution & optimal efficiency
- **Note:** Suspended corner connectors accept low-voltage track heads only. Corner connectors not suitable for pendant mounting.
